#### *The Australian Road Rules - 1999 to now*

The Australian Road Rules were developed as part of a national scheme to provide uniform road laws throughout Australia. Almost all road rules are consistent throughout Australia, however there are still some rules which differ at State and Territory borders with some existing purely for historical reasons.

Peter Davis will be presenting the history and development of the Australian Road Rules with a general overview of the rules, rules specific to South Australia and the latest amendments.

Please note that the forum is not aimed at debating specific rules or enforcement but to discuss the history, development and amendments.

*AITPM look forward to seeing you at the forum*
