**TOPICS: PARAMICS MODELLING,
NZTPDB TRIP GENERATION RATES INITIATIVE,
BLACKSPOT PROGRAM**

Wednesday 4th June 2008

0830 (for 0900 start) to 1700 hrs (Lunch, Golf & Refreshments Included)

Venue: Maylands Golf Club, Maylands

Members = \$65 Non-Members = \$90

RSVP by Friday 30 May to Tiiu Stojanovic – Email: ptristoj@bigpond.com

PARAMICS is one of several micro-simulation modelling packages and probably the most widely used in WA. This presentation will address Main Roads WA requirements for Paramics modelling projects and help in understanding how to compile study briefs/ specifications so that consultants deliver what is needed for development planning. The presentation will use Perth based case studies and show some of the capabilities of the Paramics package.

NZTPDB (New Zealand Trips & Parking Database Bureau) has a reciprocal membership of AITPM and is a growing technical focus group in New Zealand aiming at improving the database used for forecasting trip generation rates. An invitation has been extended to government and the private sector in Australia to join the Bureau and add to the database. This presentation provides some more background.

BLACKSPOT program submissions are due for submission soon and this presentation by Main Roads WA gives some practical guidance on the issues to address in making your submission a success.
