An increasing number of bicycle facilities have been implemented across Melbourne, in response to an increase in cycling as a commuting and recreational transport mode. The development and implementation of appropriate and safe bicycle facilities for both on-road and off-road environments is an essential tool for those involved in transport planning and management.

AITPM and Bicycle Victoria are proud to present this annual bicycle tour, visiting various bicycle treatment sites across inner Melbourne. The tour will give a “first hand” view of various bicycle treatments and will enable discussion of their relative merits with other users as well as with presenters from Bicycle Victoria.

The 20 kilometre return trip circuit will visit a number of bicycle treatments of interest through Docklands, Footscray and West Footscray.

Participants are asked to bring their own bicycle and helmet. Very limited bicycle hire and helmets are available on the day. These will need to be booked with the event organiser prior to the RSVP. No additional loan bicycles can be provided on the day.

RSVP to [http://aitpmvic20110223.eventbrite.com](http://aitpmvic20110223.eventbrite.com) by Tuesday 22\(^{nd}\) February

For more information, or to loan a bicycle, email: emmanuel.natalizio@trafficworks.com.au

Book early to reserve a place, tour numbers are limited

This event contributes towards your Continuing Professional Development (CPD) requirements, as required by many professional associations.
